Introduction

This document offers a high-level overview of the **$PEPERONI Meme Coin Protocol** a deliciously decentralized experiment built on Solana, spiced with community vibes, and served hot to the culture.

Whether you're here to explore the meme, understand the mission, or just figure out why everyone's talking about pizza on the blockchain, this paper is for you.

We're not promising world domination. We're just here to **build, vibe, and feed the ecosystem** one slice at a time.

What is $PEPERONI?

It's not just a coin. It's not just a meme. $PEPERONI is a community payment token built to celebrate the people who make Web3 spicy creators, builders, and degens. It's fast. It's fair. It's food-themed financial freedom. Distributed, delicious, and baked on Solana.

Mission & Vibes

"Cooked by the People" What happens when you throw community, culture, and a little insanity into a Solana oven? You get $PEPERONI a decentralized memecoin that isn't built on hype, but on **fun, fairness, and freedom**.

No tax scams. No VCs calling shots. Just a growing tribe of meme chefs baking something tastier than the usual crypto soup.

Built different:

- LP burned
- Ownership renounced
- Meme-first mission
- Permissionless utility layer on Solana

> It's not just a vibe it's a movement with mozzarella.

The Slice of Utility

Whether you're a builder, creator, degen, or just here for the sauce **$PEPERONI isn't just a memecoin, it's a full-course utility token inside the world's most flavorful Web3 experience**.

Built on **Solana** for blazing speed. Fueled by **community** and **creativity**. Designed to be **used**, not just held.

```
1  Our services will be shown once they are developed and released.
```

Roadmap: The Oven's Always On

Our roadmap isn't bound by rigid timelines we build as the dough rises and the sauce simmers. Milestones unlock based on community growth, development readiness, and how spicy things get.

M1 - Token Goes Live on Solana's DEX

The official $PEPERONI listing on a Solana's DEX. Let the swaps begin and the oven starts warming.

M2 - Bake the Most Valuable Pizza Over the World

Launch the **on-chain most valuable pizza in the history** where the community fights for meme glory and $PEPERONI.

M3 - Peperoni as a Service (PaaS)

A full-stack toolkit for meme creators, degens, and community builders powered by $PEPERONI.

M4 - Merchandising Store Goes Live

Grab the hottest meme merch straight from the oven. Think "Redbubble meets meme coin culture", but spicy, fast, and fueled by $PEPERONI.

M5 - $PEPERONI as Payment Integration

Enable $PEPERONI as the native payment method across all our services. From tools to merch, the pepper gets you in.

M6 - Meme Coin Launchpad

Launch meme tokens without code in minutes. Think "$DOGE Launcher" but Solana-speed and peppered with vibes.

M7 - Meme Airdrop Tool

Drop spicy tokens to your meme-loving followers, no devs needed. Think "Solana faucet meets meme campaign" fast, fun, and powered by $PEPERONI.

M8 - Meme On-Chain Form Tool

Permissionless wallet-based forms for token sales, whitelists, contests, and more. No Google Forms only meme forms.

Slicenomics

Total Supply: 1,790,000,000 $PEPERONI

Like any legendary pizza, it all starts with the dough and we're baking it right.

The Milestone Burn: 790,000,000 $PEPERONI (44.13%)

At launch, we're firing up the oven and turning 790 million tokens into the "pizza dough", the base layer of scarcity and flavor for the $PEPERONI ecosystem.

But we're not tossing it all into the fire at once.

This dough will be baked in slices, with tokens burned progressively across 8 project milestones. The earlier the milestone, the hotter the burn larger portions toasted upfront, with smaller slices burned as the project rises in adoption and utility.

Milestone	Description	Tokens Burned	Burn % of Total Burn
M1	Token Launch on Solana's DEX	200,000,000	25.32%
M2	The Most Valuable Pizza Launch	160,000,000	20.25%
M3	Peperoni as a Service (PaaS)	120,000,000	15.19%
M4	Merch Store Goes Live	100,000,000	12.66%
M5	$PEPERONI as Payment	80,000,000	10.13%
M6	Meme Coin Launchpad	60,000,000	7.59%
M7	Meme Airdrop Tool	40,000,000	5.06%
M8	Meme On-Chain Form Tool	30,000,000	3.80%
Total		**790,000,000**	**100%**

Distribution of the 1,000,000,000 $PEPERONI remaining supply

Category	Allocation	% of Remaining Supply	Purpose
Community Slice	870,000,000	87%	Airdrops, liquidity, rewards, ecosystem participation the people's pepperoni.
MemeOven Wallet	50,000,000	5%	Funding for **tooling**, **on-chain services**, and meme infra development. It's how we keep building.
Treasury Wallet	50,000,000	5%	Listings, marketing, campaign launches fueling long-term sustainability.
Developer Team	30,000,000	3%	Core contributors & devs who brought the pizza to life. No VC, just vibes.

Toppings You'll Love:

- **LP Tokens Burned**
- **Contract Renounced**
- **No Taxes**
- **Transparent Wallets**

> "Cooked fair. Distributed evenly. Served to the memelords."

Disclaimer: No Promises, Just Peperonis

PEPERONI is a **meme coin**, created **for entertainment, culture, and community engagement** on the Solana blockchain. It is **not an investment**, **not a security**, and **not backed by any expectation of profit** from the efforts of others.

Read This Before You Ape:

- $PEPERONI **does not represent ownership**, equity, dividends, or shares in any organization.
- There is **no VC**, and **no roadmap fixed time promises** only vibes and community-built ideas.
- We **renounce control** and distribute the token for **memetic and experimental purposes** only.
- Participation in the $PEPERONI ecosystem (including games, merch, or tools) is entirely **voluntary** and **for fun**.

TL;DR:

If you're looking for a guaranteed return, **this ain't it**. $PEPERONI is a spicy slice of internet culture, not financial advice, not a promise of gains.

> "We're baking memes, not securities."

Community & Culture

At the heart of $PEPERONI is a community of **pizza-pilled memelords**, creators, degens, and builders united by one delicious mission:

To bake the most valuable pizza the world has ever seen on-chain, together.

We're not here for empty hype or fake promises. We're here for:

- **Vibes over valuations**
- **Utility disguised as memes**
- **Collective chaos with a sauce of vision**

How We Roll:

- **Meme-First Philosophy**
  If it's not fun, it's not $PEPERONI. Our culture celebrates memes, jokes, internet absurdity, and the power of decentralized humor.
- **Creator-Backed Culture**
  We support those who build. Whether you're launching your own coin, designing art, or creating spicy content, there's a slice for you in this pizza shop.
- **No Team Worship. No Gods. Just Pizza.**
  This isn't about following a founder. It's about baking something together with open wallets, open-source tools, and open minds.
- **Global, Weird & Proud**
  Whether you're in Tokyo, Texas, or Tegucigalpa if you've got the sauce, you're one of us.

What Makes Our Culture Stick:

- Burn together. Win together. The more we bake, the rarer $PEPERONI becomes.
- Participate in the ecosystem, earn perks, and flex your merch on the streets.
- Help spread the crust community memes, contests, games, and IRL activations.

> "We're not just baking pizza. We're baking culture one slice at a time."

Thank you. $PEPERONI IS NOT FREE, BUT IT FEELS LIKE DELICIOUS FREEDOM!
